

How is the entire grade of my diploma calculated?

- You completed the study program when you achieved at least 96 ECTS in courses plus 24 ECTS in your thesis (120 ECTS total) according to the curriculum.
- 75% of the final grade are calculated on the basis of 84 ECTS in courses (= the „worst“ 12 ECTS courses will not count), where the grades are weighted with the ECTS. If you complete your program within the 4 terms, then this calculation is based on 78 ECTS (= the „worst“ 18 ECTS courses will not count). Seminars will always be included in these 84 (resp. 78) ECTS.
- 25% of the grade are based on the thesis.

Further:

- Additional courses (if you have more than 120 ECTS) are displayed in the transcript of records. On demand, the grades of these courses will not be displayed.
- Additional courses from other universities/faculties which are not counted for your curriculum cannot be displayed in the transcript of records.
